

Small Town Martyrs And Murderers Religious Revolution And Counterrevolution In Western France 1774

JE Gale

Small-town Martyrs and Murderers Edward J. Woell,2006 On March 11, 1793, about a thousand counterrevolutionary rebels converged on the small French town of Machecoul and over the next six weeks killed many of its revolutionary officials and supporters. The massacres at Machecoul marked the beginning of a popular insurgency in western France called the War of Vendee, in turn igniting the ferocious republican response known today as the Terror. This story explores why these small-town massacres occurred, how they may have unfolded, and what the local and national repercussions of the murders were. The author Edward J. Woell argues that more than any other factor, religion stood at the center of the massacres: in their origins during the late Old Regime, in their enactment amid the wider revolutionary tumult, and in their remembrance over the century that followed. Claiming a greater significance to the episode than most historians have acknowledged, Woell shows that the Machecoul massacres not only raise the most fundamental, profound, and perplexing questions that scholars have sought to answer, but they also embody the quintessential themes of the French Revolution.

The Oxford Handbook of the French Revolution David Andress,2015 This title brings together a sweeping range of expert and innovative contributions to offer engaging and thought-provoking insights into the history and historiography of the French Revolution, particularly its legacies in transnational and global contexts.

A Companion to the French Revolution Peter McPhee,2014-12-15 A Companion to the French Revolution comprises twenty-nine newly-written essays reassessing the origins, development, and impact of this great turning-point in modern history. Examines the origins, development and impact of the French Revolution Features original contributions from leading historians, including six essays translated from French. Presents a wide-ranging overview of current historical debates on the revolution and future directions in scholarship Gives equally thorough treatment to both causes and outcomes of the French Revolution

The Turn to Transcendence Glenn W. Olsen,2012-07-30 “Phenomenal . . . A must read for us who desire to topple the

dictatorship of relativism and culture of death and replace it with the only alternative” (The Imaginative Conservative). Especially concerned with the public nature of religion, historian Glenn W. Olsen—author of *Christian Marriage: A Historical Study* and *On the Road to Emmaus: The Catholic Dialogue with American and Modernity*—sets forth an exhaustively researched and persuasive account of how religion has been reshaped in the modern period. *The Turn to Transcendence* traces both the loss of transcendence and attempts to recover it while making its own proposals. Neither reactionary nor modernist, it questions how—under conditions of modern life—some form of the sacred and some form of the secular might both flourish at the same time. But it also provides a warning that a religion unable to maintain itself with its own overt architecture, language, and calendars against an enveloping secular culture is destined for oblivion. “Glenn Olsen’s book could hardly be more pivotal or insightful. Confronting the growing amnesia regarding culture’s religious origin and transcendent purpose, Olsen proves both a masterful cartographer of modernity and a visionary of a culture that encourages and enables us to seek beyond ourselves.” —Carl A. Anderson, Supreme Knight of the Knights of Columbus “A brilliant book. It rests on an amazing amount of scholarship that is wide-ranging in history, literature, art, science, music, theology, and philosophy.” —James Hitchcock, professor of history, St. Louis University

Priests of the French Revolution Joseph F. Byrnes, 2015-02-05 The 115,000 priests on French territory in 1789 belonged to an evolving tradition of priesthood. The challenge of making sense of the Christian tradition can be formidable in any era, but this was especially true for those priests required at the very beginning of 1791 to take an oath of loyalty to the new government—and thereby accept the religious reforms promoted in a new Civil Constitution of the Clergy. More than half did so at the beginning, and those who were subsequently consecrated bishops became the new official hierarchy of France. In *Priests of the French Revolution*, Joseph Byrnes shows how these priests and bishops who embraced the Revolution creatively followed or destructively rejected traditional versions of priestly ministry. Their writings, public testimony, and recorded private confidences furnish the story of a national Catholic church. This is a history of the religious attitudes and psychological experiences underpinning the behavior of representative bishops and priests. Byrnes plays individual ideologies against group action, and religious teachings against political action, to produce a balanced story of saints and renegades within a Catholic tradition.

The Oxford Handbook of Religion in Modern Ireland Gladys Ganiel, Professor in the Sociology of Religion Gladys Ganiel, Andrew R. Holmes, 2024-01-30 This volume offers a range of sociological, political, and historical perspectives on religion in Ireland from 1800 to the present. Going beyond the usual Catholicism-Protestantism dichotomy and adopting an all-island approach, the book's contributors address religion's interaction with several contemporary themes and debates in modern Ireland.

Muslims and Citizens Ian Coller, 2020-03-20 A groundbreaking study of the role of Muslims in eighteenth-century France

“This elegant, braided history of Muslims and French citizenship is urgently needed. It will be a ‘must read’ for students of the French Revolution and anyone interested in modern France.”— Carla Hesse, University of California, Berkeley From the beginning, French revolutionaries imagined their transformation as a universal one that must include Muslims, Europe’s most immediate neighbors. They believed in a world in which Muslims could and would be French citizens, but they disagreed violently about how to implement their visions of universalism and accommodate religious and social difference. Muslims, too, saw an opportunity, particularly as European powers turned against the new French Republic, leaving the Muslim polities of the Middle East and North Africa as France’s only friends in the region. In *Muslims and Citizens*, Collier examines how Muslims came to participate in the political struggles of the revolution and how revolutionaries used Muslims in France and beyond as a test case for their ideals. In his final chapter, Collier reveals how the French Revolution’s fascination with the Muslim world paved the way to Napoleon’s disastrous invasion of Egypt in 1798.

Theatres Of Violence Philip Dwyer, Lyndall Ryan, 2012-04-01 Massacres and mass killings have always marked if not shaped the history of the world and as such are subjects of increasing interest among historians. The premise underlying this collection is that massacres were an integral, if not accepted part (until quite recently) of warfare, and that they were often fundamental to the colonizing process in the early modern and modern worlds. Making a deliberate distinction between ‘massacre’ and ‘genocide’, the editors call for an entirely separate and new subject under the rubric of ‘Massacre Studies’, dealing with mass killings that are not genocidal in intent. This volume offers a reflection on the nature of mass killings and extreme violence across regions and across centuries, and brings together a wide range of approaches and case studies.

Bloodlust Russell Jacoby, 2011-04-05 THROUGHOUT HISTORY AND ACROSS CULTURES, the most common form of violence is that between family members and neighbors or kindred communities—in civil wars writ large and small. From assault to genocide, from assassination to massacre, violence usually emerges from inside the fold. You have more to fear from a spouse, an ex-spouse, or a coworker than you do from someone you don’t know. In this brilliant polemic, Russell Jacoby argues that violence erupts most often, and most savagely, between those of us most closely related. An Indian nationalist assassinated Mohandas Gandhi, “the father” of India. An Egyptian Muslim assassinated Anwar Sadat, the president of Egypt and a recipient of the Nobel Peace Prize. An Israeli Jew assassinated Yitzhak Rabin, the Israeli prime minister and similarly a recipient of the Nobel Peace Prize. Genocide most often involves kindred groups. The German Christians of the 1930s were so closely intertwined with German Jews that a yellow star was required to tell the groups apart. Serbs and Muslims in Bosnia, like the Hutu and Tutsi in Rwanda, are often indistinguishable even to one another. This idea contradicts both common sense and the collective wisdom of teachers and preachers, who declaim that we fear—and sometimes should fear—the “other,” the dangerous stranger. Citizens and scholars alike believe that enemies lurk in the street and beyond, where we confront a “clash of civilizations” with foreigners who challenge our way of life. Jacoby offers a

more unsettling truth: it is not so much the unknown that threatens us, but the known. We attack our brothers—our kin, our acquaintances, our neighbors—with far greater regularity and venom than we attack outsiders. Weaving together the biblical story of Cain and Abel, Freud’s “narcissism of minor differences,” insights on anti-Semitism and misogyny, as well as fresh analyses of “civil” bloodbaths from the St. Bartholomew’s Day Massacre in the sixteenth century to genocide and terrorism in our own time, Jacoby turns history inside out to offer a provocative new understanding of violent confrontation over the centuries. “In thinking about the bad, we reach for the good,” he says in his Introduction. This passionate, counterintuitive account affords us an unprecedented insight into the roots of violence.

The Cambridge World History of Genocide Ned Blackhawk, Ben Kiernan, Benjamin Madley, Rebe Taylor, 2023-05-04
Volume II documents and analyses genocide and extermination throughout the early modern and modern eras. It tracks their global expansion as European and Asian imperialisms, and Euroamerican settler colonialism, spread across the globe before the Great War, forging new frontiers and impacting Indigenous communities in Europe, Asia, North America, Africa, and Australia. Twenty-five historians with expertise on specific regions explore examples on five continents, providing comparisons of nine cases of conventional imperialism with nineteen of settler colonialism, and offering a substantial basis for assessing the various factors leading to genocide. This volume also considers cases where genocide did not occur, permitting a global consideration of the role of imperialism and settler-Indigenous relations from the sixteenth to the early twentieth centuries. It ends with six pre-1918 cases from Australia, China, the Middle East, Africa, and Europe that can be seen as 'premonitions' of the major twentieth-century genocides in Europe and Asia.

The French Revolution: A History in Documents Micah Alpaugh, 2021-01-14
The French Revolution: A History in Documents explores the rapidly evolving political culture of the French Revolution through first-hand accounts of the revolutionary (and counterrevolutionary) actors themselves. It demonstrates how radical Enlightenment philosophy fused with a governmental crisis to create a moment of new political possibilities unlike any the world had previously seen. In so doing, the French and their allies generated a template for revolutionary possibility from which virtually all subsequent political movements – liberalism, abolitionism, socialism, anarchism, conservatism, feminism and human rights included – derived inspiration. As well as providing an invaluable general introduction, vital contextual notes and thematic bibliographies, Micah Alpaugh selects a fascinating range of pieces, drawing on Parisian, provincial, colonial, and even international voices. From Enlightened dissent to apologies for terror, from declarations of human rights to accounts of slave rebellions, from passionate arguments for democratization to the authoritarian pronouncements of Napoleonic rule, this book presents the French Revolution's evolution in all its awesome complexity. In addition to classic texts, Alpaugh includes many lesser-known sources, a number of which are translated into English here for the first time. This unique collection of 13 visual sources and over 90 documents, incorporating perspectives from across class, gender, race and nationality, provides

you with insights into the fervent debates, pronouncements and proposals that spawned modern politics.

Confiscating the common good Edward J. Woell, 2022-08-02 Comprising five microhistories, this book proposes that the French Revolution's religious politics in small towns weakened democratic society to such an extent that it precluded political democracy. It details two revolutionary dynamics that damaged the civic life of small towns: social polarisation and the loss of local institutions that had been a source of social capital as well as a common good. Detailed narratives about Pont-à-Mousson, Gournay-en-Bray, Vienne, Haguenau and Is-sur-Tille also reveal that contrary to the view upheld by many scholars, small-town religious politics extended far beyond the pivotal Ecclesiastical Oath of 1791. Other developments — the nationalisation of Church property, the dissolution of religious orders, and the elimination of bishoprics, chapters, parishes and collegial churches — also adversely affected the wellbeing of these small urban communities not only in the Revolution but also in the two centuries that followed.

Liberty or Death Peter McPhee, 2016-05-28 A striking account of the impact of the French Revolution in Paris, across the French countryside, and around the globe The French Revolution has fascinated, perplexed, and inspired for more than two centuries. It was a seismic event that radically transformed France and launched shock waves across the world. In this provocative new history, Peter McPhee draws on a lifetime's study of eighteenth-century France and Europe to create an entirely fresh account of the world's first great modern revolution—its origins, drama, complexity, and significance. Was the Revolution a major turning point in French—even world—history, or was it instead a protracted period of violent upheaval and warfare that wrecked millions of lives? McPhee evaluates the Revolution within a genuinely global context: Europe, the Atlantic region, and even farther. He acknowledges the key revolutionary events that unfolded in Paris, yet also uncovers the varying experiences of French citizens outside the gates of the city: the provincial men and women whose daily lives were altered—or not—by developments in the capital. Enhanced with evocative stories of those who struggled to cope in unpredictable times, McPhee's deeply researched book investigates the changing personal, social, and cultural world of the eighteenth century. His startling conclusions redefine and illuminate both the experience and the legacy of France's transformative age of revolution. "McPhee...skillfully and with consummate clarity recounts one of the most complex events in modern history.... [This] extraordinary work is destined to be the standard account of the French Revolution for years to come."—Publishers Weekly (starred review)

La révolte brisée Jean-Clément Martin, 2008-02-06 Des années 1770 aux environs de 1820, les femmes participent aux

mouvements de réformes et de révolution qui bouleversent la France, avant d'en être exclues, voire victimes ; c'est cette histoire d'une révolte refusée que ce livre retrace. Salonnières et amazones, harpies révolutionnaires et lécheuses de guillotines, merveilleuses ou fanatiques contre-révolutionnaires : les femmes sont présentes dès les premiers jours de la Révolution, tout en étant perçues comme une menace pour les mœurs et pour le pouvoir fraîchement acquis par les révolutionnaires. La guerre civile radicalisant les positions, elles contribuent aux violences ou elles les subissent. Tandis que les jeunes filles et les mères deviennent les idoles de la République, les militantes politiques sont brutalement marginalisées. Après la phase la plus sanglante de la Révolution, la liberté du corps est vite canalisée par l'instauration d'une société hiérarchisée exploitant sans scrupules le désir et la violence. Pourtant la Révolution a recherché un idéal familial autour d'une égalité entre époux, comme entre frères et sœurs, avant que l'Empire ne rétablisse la primauté du mari et du père de famille. Car, contrairement à ce qui est souvent dit, la Révolution ne tue pas la famille, mais elle l'invente sur d'autres bases. L'histoire des rapports entre hommes et femmes pendant ce demi-siècle donne ainsi une autre lecture de la période. Entre histoire des mœurs et de la politique, entre histoire sociale et culturelle, ce livre offre une interprétation inédite, celle du « genre ».

La Vendée et la Révolution Jean-Clément MARTIN, 2017-06-01 Un livre de plus sur les malheurs de la Vendée ? Non. Mais une synthèse accessible au plus vaste public, qui aborde tous les sujets délicats : y a-t-il eu ou non génocide ? Était-ce une guerre civile et, si oui, de quelle nature ? Quel fut le rôle de Turreau, le général éradicateur ? Combien y eut-il de victimes et comment la mémoire locale et nationale en a-t-elle tenu compte ? La Vendée est le premier orage idéologique qui s'abat sur la France contemporaine et dont certaines traces sont toujours repérables. La dénonciation du complot, la peur des ruraux, la crainte des populations maritimes, la volonté de ruiner le pouvoir des Girondins, tant de nuées idéologiques, historiques et sociales ont cristallisé dans un événement qui a frappé comme la foudre et qui semblait né d'une logique inéluctable. Son déroulement l'a confirmé : rejet de l'ennemi, recours à la violence débridée de la guerre civile et des machines de guerre. Le travail a été achevé par la mémoire : la Vendée a compté par l'échec de son action, plus que par sa reconnaissance. La région est née de sa défaite. Et la mémoire nationale de la Révolution s'est fabriquée autour de ce conflit emblématique autant qu'autour de la Terreur. Jean-Clément Martin, professeur à Paris I-Sorbonne, a notamment publié *Violence et Révolution, essai sur la naissance d'un mythe national ; Contre-Révolution, Révolution et Nation, France 1789-1799*.

Annales historiques de la Révolution française, 2006

Whispering the Strategies of Language: An Mental Journey through **Small Town Martyrs And Murderers Religious**

Revolution And Counterrevolution In Western France 1774

In a digitally-driven world wherever screens reign great and immediate interaction drowns out the subtleties of language, the profound secrets and psychological nuances hidden within words often move unheard.
