Walk a Hound, Lose a Pound Phil Zeltzman,Rebecca Ann Johnson,2011 A dog is an ideal workout partner: always supportive, happy to go for a walk, and never judgmental. When people and dogs exercise together, fitness and health happen on both ends of the leash. As the obesity epidemic spreads, 70 percent of Americans and 50 percent of dogs are overweight or obese, resulting in staggering health care costs and suffering. The causes, consequences, and treatment for the overweight and obese are strikingly similar in people and dogs. *Walk a Hound, Lose a Pound*, written by an expert veterinary surgeon and leading nurse researcher, helps you move from a food-centered relationship with dogs to an exercise-centered relationship. This volume is designed for dog lovers, dog owners, and families. Based on the latest scientific

findings, it will also help professionals (including physicians, veterinarians, and physical therapists) fight obesity and promote fitness in both people and pets. Never has there been a more compelling time for innovative approaches to increasing physical activity, reforming sedentary lifestyles, and enhancing fitness. *Walk a Hound, Lose a Pound* provides specific strategies for people and dogs to exercise together, lose weight together, and have fun in the process.

Dog Walks Around the Norfolk Coast Suzy Watson,2016-05-18 *Dog Walks Around The Norfolk Coast* contains 16 circular dog friendly walks which vary in length, but all have one thing in common; very little time is needed on the lead. This book was created from my own desire to find good dog walks which didn't take all day, and which would let the dogs run free as much as possible. Many of the walks I discovered whilst writing this book were great for us as humans, but not quite so good for dogs. There were too many trails which required lots of road walking, which was something I have tried to avoid as much as possible here. The walks cover the whole of the Norfolk Coast stretching from Snettisham on the west coast to Caister-on-Sea on the east coast, and all are suitable for any size of dog! Each walk gives you: >the postcode for parking >a brief sentence on what you're likely to see >the length of walk >the OS map relevant to the area >a detailed hand drawn map of the route >clear instructions on following the route Covering 16 coastal dog walks, this is a handy little book for exploring the beautiful Norfolk coastline.

No walks? No worries! Sian Ryan,Helen Zulch,Peter Baumber,2014-09-15 Meeting a dog's physical, mental, and emotional needs during a period of limited mobility can help reduce the possibility of future behaviour problems, alleviate some of the stress of caring for a less active canine, and help aid recovery. Encouraging owners to reflect upon, and take into account, their dog's individual requirements in advance of surgery or other lifestyle-limiting event, the book also contains information and advice about appropriate activities that owners can introduce to their dog's daily routine whilst walks are limited.

Dog Smart Linda P. Case,2018-02-10 Anyone who lives with and loves dogs knows that they are smart. Really smart.

They understand our body language and emotions, can be trained to perform important services, are devoted companions, and enjoy walks, tricks, dog sports or just hangin' out on the couch. So, how Dog Smart are you? What do you know or wish to know about the dog's history, perceptions, understanding of humans, and responses to different training methods? These topics and more come under the scrutiny of the Science Dog in Linda Case's latest myth-busting book. Learn to separate fact from fiction about the relationship between dogs and wolves, whether dominance should be a factor in dog training, what forms of reinforcement work best, and how to apply evidence-based training methods. Dog Smart will not only help you to be a better trainer, but will give you the tools for communicating the most current information about dogs to others - including the popular Science Dog character, neighbor Joe (who happens to know a lot about dogs).
