

Making A Killing Hmos

Kant Patel, Mark E Rushefsky

Making a Killing Jamie Court, Francis Smith, 1999 Court, a nationally recognized consumer advocate and founder of a health care watchdog project, and Smith, an attorney and president of a public policy consulting firm, expose appalling practices of HMOs and the corrupt world of managed care. They tell true stories of patient victims who got caught and killed in the system, and expose the profit motive behind the misery, revealing the collusion of the insurance industry's powerful lobbyists with Congress and state legislatures to block any serious reforms. They supply an HMO patients' self-defense kit to help patients overcome HMO stonewalling.

In Pursuit of Justice Ralph Nader, 2011-01-04 Ralph Nader is one of America's most controversial—and uncompromising—public figures. He is a man on a mission who believes that taking on the powers that be involves more than just talking about it—it also means taking action. From car safety in the 1960s to opposition to the World Trade Organization in the 1990s, Nader's work has increased government responsiveness to citizens, served as a check against the abuse of power by big business, and shaped the political consciousness of a nation. Nader's sense of mission is infused in all of his work, especially his weekly columns. In *Pursuit of Justice*, a collection of Nader's most recent, trenchant articles written in the years immediately following the publication of *The Ralph Nader Reader*, Nader addresses a broad array of issues, among them: corporate crime and power, government accountability, media control, consumer rights, healthcare, congressional reform, nuclear power and energy, racial discrimination, poverty, food and drug safety, air and water pollution, fair taxation, product liability protection, union democracy, living family wage, unfair lending practices, community radio, industrial hemp, banking, pension law, telecommunications and the importance of character. Nader has even sponsored consumer initiatives to reform university governance, educational testing, daily newspapers, women's health care, legal services, and professional sports—all of which are reflected in these sharp and sometimes humorous essays. As informative as it is pleasurable to read, section after section of *In Pursuit of Justice* slices through government and corporate propaganda and reveals the corruption, bias and injustice that all too often connect politics with big business, thereby impeding the pursuit of justice. Collecting more than one hundred of his most recent writings, *In Pursuit of Justice* conveys Nader's inimitable sense of both the global political economy and our nation's democratic promise.

One Nation, Uninsured Jill Quadagno, 2006-10-09 Every industrial nation in the world guarantees its citizens access to

essential health care services--every country, that is, except the United States. In fact, one in eight Americans--a shocking 43 million people--do not have any health care insurance at all. One Nation, Uninsured offers a vividly written history of America's failed efforts to address the health care needs of its citizens. Covering the entire twentieth century, Jill Quadagno shows how each attempt to enact national health insurance was met with fierce attacks by powerful stakeholders, who mobilized their considerable resources to keep the financing of health care out of the government's hands. Quadagno describes how at first physicians led the anti-reform coalition, fearful that government entry would mean government control of the lucrative private health care market. Doctors lobbied legislators, influenced elections by giving large campaign contributions to sympathetic candidates, and organized grassroots protests, conspiring with other like-minded groups to defeat reform efforts. As the success of Medicare and Medicaid in the mid-century led physicians and the AMA to start scaling back their attacks, the insurance industry began assuming a leading role against reform that continues to this day. One Nation, Uninsured offers a sweeping history of the battles over health care. It is an invaluable read for anyone who has a stake in the future of America's health care system.

The Corporate Transformation of Health Care John P. Geyman, MD, 2004-09-14 The author explores how the corporate transformation of hospitals, HMOs, and the insurance and pharmaceutical industries has resulted in reduction in services, dangerous cost cutting, poor regulation, and corrupt research. He sheds light on the political lobbying and media manipulation that keeps the present system in place. Exposing the shortcomings of reform proposals that do little to alter the status quo, he makes a case for a workable single-payer system. This is an essential read for today's practitioners, policy makers, healthcare analysts and providers, and all those concerned with the precarious state of America's under- and uninsured.

Pathologies of Power Paul Farmer, 2005 Pathologies of Power uses harrowing stories of life and death to argue that the promotion of social and economic rights of the poor is the most important human rights struggle of our times.

The Trust Prescription for Healthcare David A. Shore, 2005 With the healthcare industry under increasing scrutiny, hospitals and other healthcare providers must seek out ways of building trust, both within their organization and throughout the community. David Shore's The Trust Prescription for Healthcare shows providers and organizations how to build their capacity for trust and trustworthiness and how to turn that capacity into a trusted reputation and brand. The data is compelling: having both the trust of the community and a reputation as a trusted provider are at once good medicine, good business, and great leadership. Providers and organizations who make the investment in trust will find that they become more effective and efficient, both clinically and administratively. This book guides readers in building a trust capacity with questions, ideas, and examples. It also spells out the return on investment that organizations can expect from building the trust brand. This book provides readers with tools, strategies, and techniques they can put to use in rebuilding their

department, service, or organization into a trustworthy one.

Bottom Line Medicine Richard K. Stanzak,2006 An exposé of the medical and pharmaceutical communities, Bottom Line confirms your fear that you may be receiving substandard medical care. A critical care nurse and former pharmaceutical research scientist, Stanzak has written a brutally honest book to.

A Crime Against One Person Edie Schmoll,2010-10-23 A Crime Against One Person is a medical tragedy, a legal battle, and a timeless love story. As a million patients are injured through medical errors in our hospitals annually--and up to 200,000 are killed--this true tale of medical malpractice and the havoc it wreaks on innocent persons reveals a crisis that affects everyone.--and is ignored by our leaders and the medical community. Interspersed are romantic and humorous incidents to relieve the underlying horror, plus practical advice for caregivers of helpless victims. Here is the shocking truth of care in American hospitals and nursing homes.

Save America, Save the World Cassandra Nathan,2007-08 Reader-friendly examination of American Founders' principles. Analytical applications to problems in: health care, taxation, education, immigration, national security, energy, and world development. Practical solutions to the health care crisis. Appropriate for policy-makers, concerned citizens, and serious students who love America.

America's Medical Industry Rodney Stich,2012-08 The information provided within these pages describes information on pockets of misconduct in America's medical industry that, if known, can make the difference between a satisfactory medical treatment or a medical tragedy. The information provides an insight into why over a 100,000 people die in hospitals every year, besides an unknown number in other medical offices. The unpunished medical misconduct is an indictment of a nation, followed by another American culture: cover-up.

Healthcare Politics and Policy in America: 2014 Kant Patel,Mark E Rushefsky,2014-12-18 This book provides a comprehensive examination of the ways that health policy has been shaped by the political, socioeconomic, and ideological environment of the United States. The roles played by public and private, institutional and individual actors in designing the healthcare system are identified at all levels. The book addresses the key problems of healthcare cost, access, and quality through analyses of Medicare, Medicaid, the Veterans Health Administration, and other programs, and the ethical and cost implications of advances in healthcare technology. This fully updated fourth edition gives expanded attention to the fiscal and financial impact of high healthcare costs and the struggle for healthcare reform, culminating in the passage of the Affordable Care Act, with preliminary discussion of implementation issues associated with the Affordable Care Act as well as attempts to defund and repeal it. Each chapter concludes with discussion questions and a comprehensive reference list. Helpful appendices provide a guide to websites and a chronology. PowerPoint slides and other instructional materials are available to instructors who adopt the book.

Healthcare Politics and Policy in America Kant Patel, Mark E. Rushefsky, 2014-04-25 Fully updated, this new edition provides a comprehensive examination of the ways that health policy has been shaped by the political, socioeconomic, and ideological environment of the United States. The roles played by public and private, institutional and individual actors in designing the healthcare system are identified at all levels.

How Corporations Hurt Us All Dan Butts, 2003 The recent accounting and corporate scandals of Enron, WorldCom, Tyco, K-Mart and McWane (producer of cast iron water and sewer pipes), which has killed 9 workers and injured 4600 more with impunity since 1995- and other greedy and lawless billion dollar behemoths- are just the tip of the iceberg relative to the serious and pervasive harm that corporations and greed are doing to people, communities, the earth and to our children's and grandchildren's future. *How Corporations Hurt Us All* examines many crises including how Big Oil, billion dollar weapons contractors, and unaccountable private firms like DynCorps are continuing dangerous and immoral Cold War policies by driving multiple wars and military operations; our collapsing corporate health care system that restricts free speech, stifles public debate, and manipulates public opinion to serve narrow corporate and political goals. Some of the world's largest multinational corporations ExxonMobil (#1 oil company), Wal-Mart (#1 retailer), HCA (#1 hospital conglomerate), Citigroup (the world's #1 financial institution)- and other rogue operations are profiled in the book. The good news is that there are effective approaches to all of these interrelated, greed-driven crises. Even more hopeful are the corporate reform and global economic democracy movements representing thousands of dedicated citizens' groups and millions of individuals throughout the world. Yet, what is ultimately necessary to reverse global economic, social, and environmental deterioration and eventual collapse, insure world peace and security, strengthen our weakened civil liberties, and fulfill our human potential, as the book explains, is forging a broad consensus on a new bottom line, or organizing principle, for business and society.

Health Care Policy in an Age of New Technologies Kant Patel, Mark E Rushefsky, 2015-05-20 Revolutionary advances in biomedical research and information systems technology pose new and difficult issues for American health care policy, especially in the context of managed care. *Health Care Policy in a New Millennium* takes on this challenging array of issues where the dignity of individual life meets the imperatives of national-level health-care systems - patients' rights, rationing of care, organ transplants, genetic research, confidentiality of medical records, the right to die, and other ethical dilemmas. The book places these critical questions about the quality of life in our society in their political, legal, social, economic, and ethical contexts.

101 Ways to the Best Medical Care Charlotte E. Thompson, 2006-08 *101 Ways To The Best Medical Care*, is the medical guide that could save your life or the life of a loved one. A gold mine of practical information and resources are provided.

Mathematics for the Environment Martin Walter,2011-01-18 Mathematics for the Environment shows how to employ simple mathematical tools, such as arithmetic, to uncover fundamental conflicts between the logic of human civilization and the logic of Nature. These tools can then be used to understand and effectively deal with economic, environmental, and social issues. With elementary mathematics, the book se

Culture and Health Michael Winkelman,2008-12-05 Culture and Health offers an overview of different areas of culture and health, building on foundations of medical anthropology and health behavior theory. It shows how to address the challenges of cross-cultural medicine through interdisciplinary cultural-ecological models and personal and institutional developmental approaches to cross-cultural adaptation and competency. The book addresses the perspectives of clinically applied anthropology, trans-cultural psychiatry and the medical ecology, critical medical anthropology and symbolic paradigms as frameworks for enhanced comprehension of health and the medical encounter. Includes cultural case studies, applied vignettes, and self-assessments.

The Democracy Owners' Manual Jim Shultz,2002 The Democracy Owners' Manual is a unique, hands-on guide for people who want to change public policy at the local, state, or national level. A combination of policy and advocacy basics, the book offers a clear presentation of the issues and debates activists are likely to encounter as well as a lucid, example-rich guide to effective strategies and actions.
