*Secret War Against Japan* Allison Ind,Steve W. Chadde,2014-02-12 The Secret War Against Japan, by Colonel Allison W. Ind of the United States Army, was originally published in 1958 as Allied Intelligence Bureau: Our Secret Weapon in the War Against Japan. Now once again available, the book is the dramatic accounting of the principal activities of the AIB—the Allied Intelligence Bureau—a group of British, Australian, Dutch, and American clandestine services formed in June 1942 during World War II. It was the task of the AIB to get spies and coastwatchers into the right places, not only amid the islands of the Philippines, but in a vast area of the southwestern Pacific. The AIB also supported and conducted numerous guerrilla operations throughout the region. Their contribution to the Allied victory was significant, and in part reflected in the over 170 decorations awarded to members of the AIB. This new edition includes a Preface by Steve W. Chadde, maps, and photographs of AIB activities and personnel.

**Co-creating Brands** Nicholas Ind,Holger J. Schmidt,2019-12-12 An essential guide to contemporary marketing that demonstrates, via case studies, the move towards marketing techniques that better reflect consumer needs. Brand management and development has traditionally been regarded as the responsibility of the organization - they design, produce and sell the brand, before delivering it to customers. Yet this approach can be needlessly restrictive, as the connective power of the internet and the desire of consumers to focus on experiences has reshaped branding. In this digital age, development occurs beyond the limits of the organization so that, in many ways, brands are effectively co-created by consumers. Rather than lead, manage and control, contemporary managers have taken on the new tasks of listening, connecting and participating in brand development. The focus of this process has shifted to the intersection between the organization and its stakeholders, leading to a new paradigm of brand management: the 'co-creation perspective'. Co-Creating Brands is an accessible exploration of how co-created brands produce value and how the success of this approach can be measured and assured. The authors draw upon a wide array of international case studies and strategic models, which clearly demonstrate how to both effectively deliver this method and how to deal with the situational challenges and obstacles that can occur. If organizational leaders are willing to relinquish complete control of their brand and recognize the supportive culture of employees, customers and stake-holders, their brand can become an unstoppable marketing force.

**Culture is bad for you** Orian Brook,Dave O'Brien,Mark Taylor,2020-09-14 Culture will keep you fit and healthy. Culture will bring communities together. Culture will improve your education. This is the message from governments and arts organisations across the country; however, this book explains why we need to be cautious about culture. Offering a powerful call to transform the cultural and creative industries, Culture is bad for you examines the intersections between race, class, and gender in the mechanisms of exclusion in cultural occupations. Exclusion from culture begins at an early age, the authors argue, and despite claims by cultural institutions and businesses to hire talented and hardworking individuals, women, people of colour, and those from working class backgrounds are systematically disbarred. While the inequalities that characterise both workforce and audience remain unaddressed, the positive contribution culture makes to society can never be fully realised.
